

Nawab Ahmad Reshi

Information Architect | Engineering Documentation for Complex Systems & Infrastructure |

Accomplished multidisciplinary technical leader with 14+ years of experience driving content strategy, technical documentation, UX, and information architecture for complex engineering systems and infrastructure.

Proven expertise in scaling developer and cloud documentation for SaaS platforms using DITA, Markdown, Git, and Agile methodologies. Specialized in translating system architectures, integrations, and technical workflows into structured, scalable, and user-centric documentation.

Experienced in building AI-assisted documentation ecosystems across AWS and Azure environments. Strong focus on documenting distributed, integration-heavy systems, with growing alignment to industrial environments and communication-driven architectures.

Core Competencies

Engineering Documentation & Systems Expertise

- Translate system architectures, integrations, and complex technical workflows into structured, scalable documentation
- Develop documentation for distributed, integration-heavy platforms across infrastructure-driven environments
- Create clear, user-centric content for both technical and non-technical stakeholders
- Collaborate with cross-functional engineering teams to align documentation with system design and implementation
- Design documentation that improves usability, operational efficiency, and onboarding for complex systems

Work History

2023-08 -
Current

Information Architect | Technical
Publishing, Docs Infrastructure & UX

Aquera Labs, Bengaluru

- Designed and implemented scalable documentation infrastructure enabling modular, reusable, and version-controlled content delivery.
- Integrated tools and workflows to support end-to-end documentation lifecycle (authoring → publishing → maintenance)

- Improved Zendesk UI with front-end enhancements by applying new toolkits.
- Implemented Swagger UI within Zendesk, enabling faster API exploration, testing, and troubleshooting.
- Collaborated with system architects, design analysts and others to understand business and industry requirements.
- Developed ML automation scripts to automate time-consuming processes.
- Applied effective time management techniques to meet tight deadlines.
- Demonstrated strong organizational and time management skills while managing multiple projects.
- Developed Videos for interactive content with voice overs.

2022-11 -
2023-07

Information Architect | Technical Publication & UX

Jio Platforms Limited, Bengaluru

- Spearheaded content strategy and information architecture initiatives for large-scale, integration-driven platforms, improving user engagement by 25% and reducing bounce rates by 20%.
- Led a cross-functional team of 10 in developing technical documentation for complex, multi-system software and networking environments.
- Applied user-centered design principles to improve system usability and documentation clarity, resulting in a 30% enhancement in usability and a 40% reduction in support tickets.
- Managed 15+ Agile initiatives across documentation and platform delivery, ensuring 95% on-time execution and achieving a 10% reduction in project costs through optimized resource planning.
- Mentored and upskilled technical writers and UX designers, improving team productivity by 50% and reducing onboarding time by 75%.

Skills

- GIT/GITHUB/GITLAB
- Agentic AI
- Photoshop/ Draw.io
- DITA/Madcap Flare/DocuSaurus
- FIGMA
- Technical Diagramming (System Flows, Architecture, Topology)
- Visio / Miro
- Open API 3.0/ API Documentation
- Sphinx/Markdown/RTD
- DDLC/SDLC
- Swagger/Postman
- Spectral-Stoplight
- HTML5/CSS/JSP
- ReStructured Text/Latex
- Project Management/Agile/Jira
- MSTP/GSG/AP
- Technical project planning
- AWS/GCP
- Invision
- Confluence/Jira
- SNAGIT/CAMTASIA
- Static Website generator
- A/B Testing Platforms
- Crazy Egg
- Optimal Workshop
- Zendesk/Mintilify/

while enforcing documentation standards and consistency across systems

- Python
- JavaScript

2021-06 -
2022-08

Senior Technical Leader | Technical Writing & UX

Eclipse Foundation | Huawei Technologies, Bengaluru

- Standardized documentation and integrated accessibility features, resulting in 20% increase in overall user satisfaction and 30% reduction in customer support inquiries related to accessibility issues.
- Introduced streamlined branching strategy for documentation across multiple projects, leading to 25% improvement in collaboration efficiency between engineering teams and technical writers.
- Created visual representations of critical user journeys and reusable design templates for documentation, enhancing documentation clarity and reducing content creation time by 40%.
- Implemented document status tracking system and reported progress to stakeholders, resulting in 15% reduction in project delays and improved project visibility.
- Led UX solutions for marketing initiatives, ensuring cross-app alignment and adherence to design patterns, leading to 10% increase in conversion rates and 20% improvement in user engagement.

2019-06 -
2021-05

Technical Writing & UX | Senior Technical Lead

Samsung R&D Institute | Open Source Tizen OS, Knox, ML & Galaxy, Bengaluru

- Led and managed global team of 16+ Technical Writers, resulting in 20% improvement in documentation quality and 15% reduction in time-to-market for API and Developer Documentation projects.
- Developed and implemented comprehensive content strategy for feature enhancement initiatives, contributing to 30% increase in user

adoption and 25% boost in customer satisfaction for Global Markets business.

- Successfully optimized team's use of documentation toolchains and third-party services, leading to 40% increase in documentation discoverability and 50% improvement in analytics insights for continuous improvement.
- Spearheaded introduction of Agile best practices culture within team, resulting in 30% increase in team productivity and 20% reduction in project delivery time.
- Revamped API documentation process by deploying Doxygen for API documentation and DocFx for .NET and C-based APIs, leading to 25% improvement in documentation accuracy and 20% reduction in API integration issues.

2018-03 -
2019-06

Senior Technical Writer & UX Specialist

Compassites pvt Ltd., | Sunbird, Diksha Technical project, Bengaluru

2013-01 -
2017-12

Technical Writer & UX Design Consultant

STC Technologies | LMS, Digital Signages, Data centers, networks

2011-01 -
2012-02

Software Engineer (Documentation)

KarroxTechnologies, New Delhi

Education

2020-01 -
2026---

Ph.D.: Computer Science | IoT, AI, NN, ML

Mewar University | JNU - Delhi

2012-06 -
2012-07

M.C.A

Islamic University of Science & Technology - Pulwama

2006-01 -
2009-01

B.C.A

Amar Singh College | Kashmir University - Srinagar

Accomplishments

- TC World Keynote Speaker, Best paper Award.
- Python & UX design merit certificates
- Star of the year in Samsung R&D for my contribution to infra team.
- Best Innovation award in Eclipse Foundation.
